50 ANIVERSARIO 1974 - 2024

AACM

Asociación Argentina de Cirugía de la Mano y Reconstructiva del Miembro Superior

OCTOBER 7

ROOM ONYX 1

8:00 hs. / 9:00 hs.

PRACTICAL INSTRUCTION COURSE:
ULTRASOUND DIAGNOSIS AND ULTRASOUND-GUIDED SURGERY.

Objective: To train attendees in the integration of high-resolution ultrasound, transforming it from a purely diagnostic tool to a therapeutic guide.

9:00 hs. / 10:00 hs.

FREE PAPERS SESSION

11:15 hs. / 12:00 hs.

THE HOSTILE NERVE:
FRONTIERS, LEADERSHIP AND RESCUE IN COMPLEX COMPRESSIVE SYNDROMES.

Objective: To provide a critical and evidence-based approach to the diagnosis and surgical treatment of complex compressive neuropathies.

12:00 hs. / 12:30 hs.

FRONTIERS IN COVERAGE:
PERFORATOR FLAPS AND SALVAGE IN THE UPPER LIMB.

Objective: To train in vanguard microsurgical techniques for coverage and rescue of vascular failures in the upper limb.

14:45 hs. / 15:30 hs.

DECIPHERING THE HIDDEN:
CONTROVERSIES AND RESCUE IN PROXIMAL NERVE COMPRESSIONS.

Objective: To delve into the management of proximal and controversial neurological compressions of the upper limb.

15:30 hs. / 16:15 hs.

THE DIGITAL SURGEON: FROM DATA MANAGEMENT TO CLINICAL ARTIFICIAL INTELLIGENCE

Objective: To familiarize surgeons with digital and AI tools of immediate application to transform the daily workflow.

16:45 hs. / 17:15 hs.

RESTORING THE AXIS:
REBALANCING, ARTHROPLASTY, AND FUNCTION IN THE RHEUMATOID HAND.

Objective: To train in the reconstructive and therapeutic management of the rheumatoid hand, systematizing realignment and arthroplasty criteria.

17:15 hs. / 18:00 hs.

CROSSFIRE IN THE EPICONDYLE:
DEMYSTIFYING LATERAL TENDINOPATHY.

Objective: To provide an evidence-based update on the management of recalcitrant lateral epicondylitis.

ROOM ONYX 3

8:00 hs. / 9:00 hs.

PRACTICAL INSTRUCTION COURSE:
FINGERTIP INJURIES.

Objective: To provide a practical, evidence-based algorithm for rapid decision-making in the management of fingertip injuries.

9:00 hs. / 10:00 hs.

MASTERING NO MAN'S LAND:
SURGICAL STRATEGIES AND VANGUARD REHABILITATION IN ZONE 2.

Objective: To update on current debates and technical advances in the management of flexor injuries in the challenging "no man's land".

11:15 hs. / 12:30 hs.

360° SCAPHOLUNATE INSTABILITY:
FROM EARLY DIAGNOSIS TO FUNCTIONAL RETURN.

Objective: To provide a critical and updated analysis on the comprehensive approach to scapholunate instability.

12:30 hs. / 13:00 hs.

OPENING CEREMONY

10:30 hs. / 11:15 hs.

STABILITY VS. MOVEMENT:
THE THERAPEUTIC ARSENAL IN ACUTE FRACTURE-DISLOCATIONS OF THE PROXIMAL INTERPHALANGEAL JOINT.

Objective: To provide a comprehensive, evidence-based overview of decision-making in complex acute fracture-dislocations of the PIP joint.

14:45 hs. / 15:30 hs.

BONE RECONSTRUCTION IN NONUNION AND MALUNION OF THE HAND.

Objective: To provide the most advanced reconstructive strategies for the management of bone traumatic sequelae in the hand.

15:30 hs. / 16:15 hs.

AWARD SELECTED FREE PAPERS SESSION

16:45 hs. / 17:15 hs.

SPECIAL SESSION:
MEET THE EDITORS – Surviving Peer Review and avoiding the rejection of your manuscript.

Objective: To provide surgeons and authors with an exclusive behind the scenes look at the rigorous editorial process

17:15 hs. / 18:00 hs.

NO ROOM FOR ERROR:
THE SURGICAL DUEL IN THE HIGH-DEMAND WRIST.

Objective: To provide a deep perspective on the management of complex intra-articular wrist fractures in young adults with high functional demand.

OCTOBER 8

ROOM ONYX 1

8:00 hs. / 8:45 hs.

FREE PAPERS SESSION

8:45 hs. / 9:30 hs.

THE SPECTRUM OF THE DISTAL RADIOULNAR JOINT:
FROM LIGAMENTOUS INSTABILITY TO TOTAL ARTHROPLASTY.

Objective: To provide a comprehensive approach to distal radioulnar joint pathology, contrasting repair and arthroplasty.

9:30 hs. / 10:00 hs.

ELBOW REANIMATION:
CURRENT FRONTIERS IN LATE RECONSTRUCTION OF MOTOR DEFICITS.

Objective: To provide a comparative analysis to restore active elbow flexion using tendon transfers vs. free muscle flaps.

11:15 hs. / 12:00 hs.

SILENCING THE NEUROMA:
VANGUARD STRATEGIES AND RESCUE IN NEUROPATHIC PAIN.

Objective: To train in advanced surgical techniques for the treatment of refractory neuropathic pain in the upper limb.

12:00 hs. / 12:30 hs.

CONFERENCE DR. BERTRAND COULET.
THE STRIATAL HAND:
DESCRIPTION OF ITS DEFORMITIES AND ITS TREATMENT

14:00 hs. / 14:45 hs.

THE CLASH OF TWO WORLDS:
CLINICAL EXPERIENCE VS. EVIDENCE-BASED MEDICINE.

Objective: To develop critical judgment to identify which scenarios are dictated by literature and which by experience/patient individualization.

14:45 hs. / 15:30 hs.

EXPANSION AND LIMITS OF THE WALANT TECHNIQUE.

Objective: To provide a critical analysis on the evolution, safety, logistical viability, and expanded clinical utility of the WALANT technique.

15:30 hs. / 16:00 hs.

NEONATAL BRACHIAL PLEXUS PALSY:
CRITICAL DECISIONS FROM BIRTH TO SEQUELAE.

Objective: To provide a comprehensive approach for managing neonatal brachial plexus injuries and define rescue strategies for sequelae.

16:30 hs. / 17:15 hs.

INTERNATIONAL ROUND TABLE:
CONSENSUS AND CONTROVERSIES IN SEVERE ELBOW TRAUMA.

Objective: To provide decision algorithms for the management of complex elbow fractures and fracture-dislocations.

17:15 hs. / 18:00 hs.

COMPLICATIONS AND SEQUELAE OF ELBOW TRAUMA.

Objective: To provide advanced surgical strategies for the functional rescue of the severely injured elbow.

ROOM NYX 3

8:00 hs. / 9:30 hs.

IBRA SYMPOSIUM

9:30 hs. / 10:00 hs.

THE BALANCE OF THE DORSAL MECHANISM:
PREVENTION, RESCUE, AND REHABILITATION IN ZONE 3.

Objective: To provide a comprehensive and updated approach to the management of extensor mechanism injuries in Zone 3.

11:15 hs. / 12:00 hs.

AWARD SELECTED
FREE PAPERS SESSION

14:00 hs. / 14:45 hs.

SCAPHOID RESCUE:
FROM ARTHROSCOPIC PRECISION TO VASCULARIZED MICROSURGERY.

Objective: To provide advanced strategies for bone rescue in the scaphoid.

14:45 hs. / 15:30 hs.

PAST PRESIDENTS SESSION 1:
PROFILES AND MEMORIES

15:30 hs. / 16:00 hs.

CONFERENCE DR. EDUARDO ZANCOLLI:
"AUGMENTATION IN PATHOLOGY OF THE EXTENSOR SYSTEM."

16:30 hs. / 17:15 hs.

EVIDENCE, EXPECTATIONS, AND ECONOMICS:
THE SURGICAL DILEMMA IN THE OLDER ADULT.

Objective: To provide a critical analysis on decision-making in distal radius fractures in older adults, contrasting literature, economics, and expectations.

17:15 hs. / 18:00 hs.

PAPERS SESSION FOR FULL MEMBERSHIP

OCTOBER 9

ROOM ONYX 1

8:00 hs. / 9:00 hs.

FREE PAPERS SESSION

9:00 hs. / 10:00 hs.

YOUNG HAND SURGEONS CLUB SESSION (CJCM)

11:15 hs. / 12:00 hs.

BRACHIAL PLEXUS SESSION:
GLOBAL STRATEGY IN TOTAL INJURIES (C5-T1).

Objective: To establish a clear priority algorithm for the patient with total brachial plexus avulsion.

12:00 hs. / 12:30 hs.

3D PRINTING:
CURRENT CLINICAL AND SURGICAL UTILITY AND FUTURE PERSPECTIVES.

Objective: To familiarize the surgeon with the use of virtual planning and 3D printing to transform the surgical process.

14:00 hs. / 14:45 hs.

THE DILEMMA OF HAND COVERAGE:
WHEN TO ADVANCE, WHEN TO ROTATE AND WHEN TO GO DISTANT.

Objective: To provide a staggered algorithm for handling coverage defects in the hand using local, reverse, and distant flaps.

14:45 hs. / 15:30 hs.

EVOLUTION IN MOTOR REANIMATION:
FROM THE TENDINOUS PARADIGM TO NERVE TRANSFER.

Objective: To provide a decision algorithm for reanimating the paralyzed upper limb, contrasting tendinous vs nerve techniques.

15:30 hs. / 16:00 hs.

REDEFINING SPASTICITY:
FROM HYGIENIC RESCUE TO THE NEW RECONSTRUCTIVE PARADIGM.

Objective: To provide a decision-making framework for the spastic limb, differentiating functional from hygienic surgeries.

16:30 hs. / 17:15 hs.

THE ELBOW TO THE LIMIT:
STRENGTH, COLLISION AND THE CHALLENGE OF SAFE RETURN TO SPORTS.

Objective: To provide a sports traumatology approach addressing overload, tension, and contact trauma injuries in the elbow.

ROOM ONYX 3

8:00 hs. / 8:45 hs.

CROSSING OR BRIDGING THE GAP:
CURRENT FRONTIERS AND DECISION-MAKING IN NERVE DEFECTS.

Objective: To provide a comprehensive algorithm for the management of nerve gaps, contrasting biological options with motor and sensory transfers.

8:45 hs. / 9:30 hs.

JOINT AACM - AAHS ROUNDTABLE:
CHALLENGES AND SOLUTIONS IN COMPLICATIONS AND SEQUELAE.

Objective: To evaluate and formulate management strategies for complex complications integrating AACM and AAHS approaches.

9:30 hs. / 10:00 hs.

CONFERENCE DR. JEFFERSON BRAGA-SILVA:
DISTAL PHALANX INJURIES

11:15 hs. / 12:00 hs.

PAST PRESIDENTS' SESSION 2.
BEYOND THE EVIDENCE:
DECISION-MAKING IN COMPLEX CASES.

Objective: To explore the decision-making process in situations where scientific evidence is limited, integrating it with the surgeon's experience

12:00 hs. / 12:30 hs.

PAST PRESIDENTS SESSION 3:
TOURING HISTORY

14:00 hs. / 14:45 hs.

BONE RECONSTRUCTION TO THE LIMIT:
FROM BIOLOGICAL RESCUE TO VANGUARD MICROSURGERY.

Objective: To provide advanced surgical strategies to resolve massive bone defects and consolidation failures in the upper limb.

14:45 hs. / 15:30 hs.

SENIORS VS JUNIORS TRIVIA.
"LEGACY & FUTURE:
THE KNOWLEDGE CHALLENGE"

15:30 hs. / 16:00 hs.

CONFERENCE
DR. PABLO DE CARLI

17:15 hs. / 18:00 hs.

CLOSING CEREMONY

10:00 hs. / 10:30 hs. COFFE BREAK

13:00 hs. / 14:45 hs. LUNCH

16:15 hs. / 16:45 hs. COFFE BREAK

16:00 hs. / 16:30 hs. COFFE BREAK

12:30 hs. / 14:00 hs. LUNCH
